Subject: BCUC Smart Meter Fires -- A report

Dear Minister Mungall,

Next week you will receive a box containing 2 binders with a report and evidence gathered over the last 3 years, entitled "BCUC & Smart Meter Fires: The Failure to Protect". The report has been delivered to Premier Horgan's constituency office and mailed to Mr. Morton, CEO and Chair of BCUC. The covering letters are attached above.

I would ask that you and your staff give serious consideration to the incidents documented and to the failure of BC Hydro to take appropriate actions to ensure that the smart meters are safe. After 3 years of asking, I still have not received confirmation that this device was inspected and found safe by a professional engineer at BC Hydro. This alone speaks volumes to the failure to BC Hydro to exercise due diligence with regard this equipment which has been put on homes.

I am happy to answer questions or to provide more information, should you ask.

Regards,
Sharon Noble
